

Clavering Primary School Promoting British Values

At Clavering Primary School, everything we do, including the curriculum is underpinned by the school's values, British Values, SMSC and how passionately we believe in high quality education for all learners.

We take our responsibility to prepare children for life in modern Britain very seriously. We ensure that the fundamental British values are introduced, discussed and lived out through the ethos and work of the school. All curriculum areas provide a vehicle for furthering understanding of these concepts. Our cross curricular approach provides excellent opportunities to deepen and develop understanding developing the spiritual, moral, social and cultural education of our children. We make considerable efforts to ensure children have exposure to a wide experience beyond their local community during which these concepts are shown, through for example, sporting events, a range of visits and use of outdoor education centres. Their strong rooted values-based understanding gives them an excellent platform for embracing difference. At Clavering Primary School we value the voice of the child and promote democratic processes such as our school councils whose members are voted for by the children. Ideas and events are planned and discussed with a chance for debate and putting forward points of view. Children are given responsibility to run their own clubs and lead other children in games and activities so that they are fully involved in all aspects of school life. For instance, our older children are Play Leaders, House Captains, Sports Ambassadors and buddies, helping to promote our core values. We expect all our children to be good role models for each other, which is encouraged through high expectations of behaviour.

The table below gives examples of how our school Values align to the British Values and the United Nations Convention on the Rights of the Child.
