

THE FRIDAY FOCUS

Issue 10

11th February 2022

The fortnightly Friday Focus is the chance for every class at Clavering to share their learning with the Clavering School community. This is a great opportunity to find out what each year group has been up to and engage in conversations around learning.

SAFER INTERNET DAY - 8TH FEBRUARY 2022

Every February, Safer Internet Day is celebrated globally and this years theme was 'All fun and games? Exploring respect and relationships online.' Every class explored the this theme; see the selection of work below.

Reception

We talked about ways to keep safe online using the story The Adventures of Smartie the Penguin. We learned that if we come across a problem or something worrying or unexpected online we should; stop, think and tell.

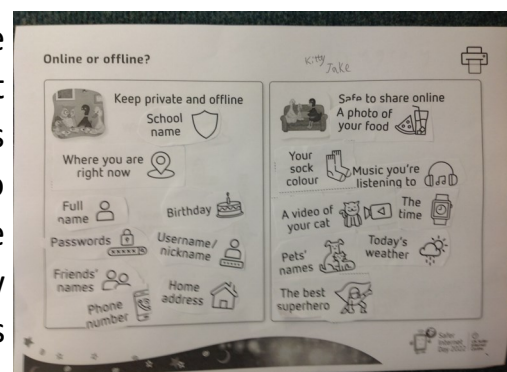

Class 1

Class 1 were introduced to Buddy the Dog who helped them understand when using a device online, what to do when something strange occurs such as a pop up message. Class 1 made posters to inform a reader of what to keep safe whilst being online.

Class 2

For safer internet day Class 2 discussed staying safe online. This included who we should talk to and what information we should share. We then worked in pairs to sort out information depending upon if it is safe to share online or should be kept private. After this, the children created a target sheet of 'people who know me' where they had to think about their relationships and circles of trust.

SAFER INTERNET DAY - 8TH FEBRUARY 2022

Continued...

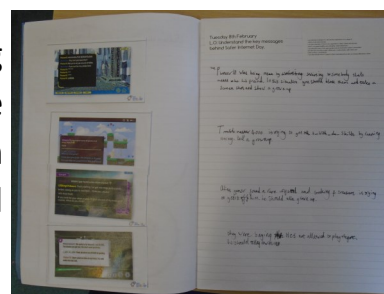

Class 3

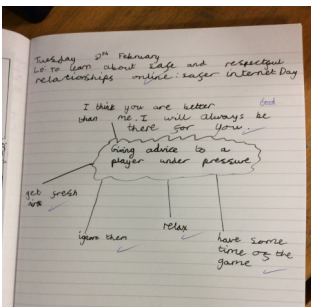

In our session we discussed the fun things we can do on the internet and how much time we spend using our devices. Children were fantastic at identifying the information that we should never share online, symbols that keep us safe in games, who to talk to if we are worried and then they created information posters.

Class 4

In Class 4 we have learnt about how to be safe when playing games online. We looked at different screenshots of online messaging within a game and identified what was wrong with the messages and what we should do if we ever experienced something similar.

Class 5

On Internet Safety day this week, the children really enjoyed talking about their experiences online; they recorded their suggestions for advice for those feeling pressure/pressuring others online.

Class 6

Class 6 watched the Safer Internet videos about how to ensure people used the internet safely and how to be respectful of others. We thought about how YouTubers or Influencers may have different motives to promote a game or product and to be aware of this when watching their videos or playing games. We also discussed the legal aspects of internet use and how to report or block inappropriate people or sites. Afterwards, we created Top Tip posters for using the internet safely when gaming, searching online, watching YouTube or uploading our own films or photographs.
