

THE FRIDAY FOCUS

Issue 25

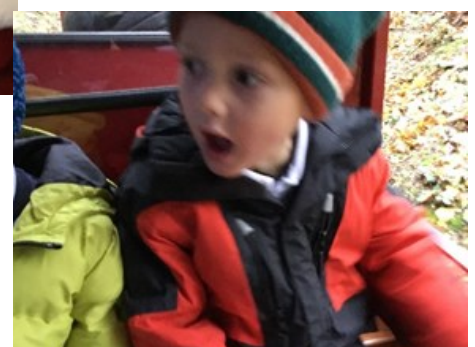

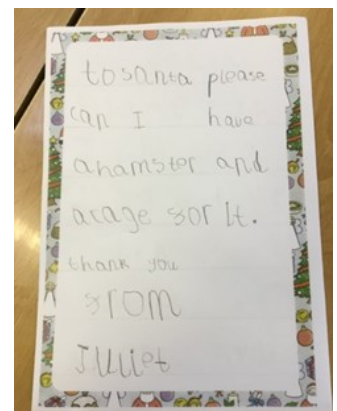

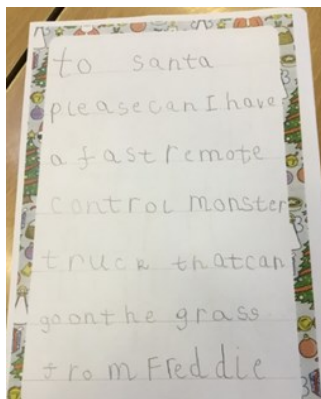

2nd December 2022

The fortnightly Friday Focus is the chance for every class at Clavering to share their learning with the Clavering School community. This is a great opportunity to find out what each year group has been up to and engage in conversations around learning.

RECEPTION

We loved our trip to Audley End to visit Father Christmas on the train. A huge thank you to the parents for transporting the children to and from Audley End.

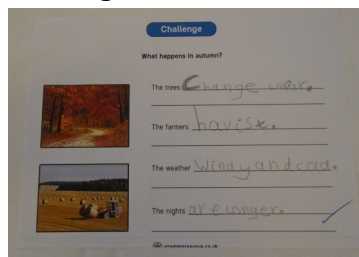

The children could not wait to board the train with their map and list of things to spot. There were exciting tunnels to pass through and parts of the song The Twelve Days of Christmas to look out for. The highlight was pulling in to see the dancing singing elves and Father Christmas on his sleigh. He stopped to speak to every child and they all received a lovely gift. After the train ride, we had a play in the play area and posted our letters in the magic post box. Thank you to Mrs Berrett, Mrs Draper and Quincey's mummy for their help.

CLASS 1

In Class 1 we have been observing and enjoying time in our natural surroundings. In science we have been learning about our most recent season, Autumn. We learnt about the months autumn occurs in and the weather expected then, we also went out into the school grounds and had a look at the changes that happen during autumn. Then we drew our own autumnal pictures and tried a challenge describing what happens in autumn.

We have also enjoyed our first forest school session where we got to enjoy playing the autumn leaves and building dens!

CLASS 2

In Science, class 2 have been looking at living things and their habitats. The children have learnt the mnemonic MRS GREN to help them remember the 7 processes all living things do—movement, respiration, sensitivity, growth, reproduce, excrete and nutrition. The children used this knowledge to find items outside that were either alive, dead or never been alive. They recorded their findings into their books.

Class 2 had an exciting time at Scootfit. The children learnt how to ride their scooters safely near a road and how to stop at a safe distance. The children demonstrated brilliant listening, independence as well as team work skills. The children thoroughly enjoyed this experience especially all the fun games.
